

Credit of Microbiology

2022/2023

1. Each absence must be made up, including the rector's days or dean's hours.
2. Attendance in classes and lectures is obligatory according to the study regulations
3. Students must have passed all class tests.
4. Students who will get a grade average ≥ 4.8 from both semesters (Microbiology part 1 and Microbiology part 2) and pass very well in the practical exam will be released from the final exam and will get a grade of 5 in microbiology.

Additional information:

- Please, read the detailed information in the "Course information" section.
- Students with sick leaves must supplement class materials as soon as possible and consult with their teachers to pass the missing material and get a credit for the class.
- According to Medical University regulations, all lectures are obligatory, and absence from the lecture must be justified by a sick leave delivered to the teacher immediately upon termination of the sick leave.
- An unjustified absence on a class test is equivalent to an unsatisfactory grade. A student on sick leave must notify the teacher by e-mail about the absence from the class test.
- One day lasting sick notes on the day when there is a class test will not be considered as such students may pass the class test with another group of students on another day.
- Students with sick leaves lasting several days have a right to the first term of a class test but in the designated terms only. Students with sick leaves lasting two or more weeks will be considered individually.
