## CHAPTER VI EVALUATION OF THE PROGRESS IN LEARNING

### Art. 30

1. The periods of receiving credit in the academic year are the terms: winter and summer.
2. The condition for passing the term/year by the student and getting an entry to study in the next term/year is:
  - 1) obtaining credits in all courses (including optional course and traineeships);
  - 2) obtaining positive grades in all examinations provided for in the study programme for a given year and making up any possible programme differences;
  - 3) obtaining the required number of ECTS points provided for in the study programme for a given term/year.
3. Teaching a course in a given semester ends with an examination or credit with or without a grade. Detailed conditions for obtaining credits are defined in the Syllabi and the Terms and Conditions for Conducting Classes.
4. Grades for tests/examinations are available in the Virtual University System, in accordance with Art. 33 sec. 5.
5. During every test or examination, the student is obliged to show their student ID, and in the absence thereof, their ID card at the request of the person administering a test or an examination.
6. The person administering a test or an examination is obliged to check whether the student has been allowed to take such a test or an examination.

### Art. 31

1. If the student fails to receive credit for the term/year, the Dean may grant the student, at his or her own request:
  - 1) conditional entry in the student book allowing the student to study in the next term, subject to Art. 44, or
  - 2) the consent to repeat the term/year, subject to Art. 45.
2. The application referred to in sec. 1 is submitted by the student to the Dean of the relevant Faculty no later than 7 days from the date of the student's term completion settlement by the Dean.

### A. Scale of grades

### Art. 32

1. The following grading scale is applied at the University:

Numeric entry	Grade in words	Abbreviation
5.0	very good (bardzo dobry)	bdb
4.5	above good (ponad dobry)	pdb
4.0	good (dobry)	db
3.5	three and a half	ddb

3.0	satisfactory (dostateczny)	dst
2.0	unsatisfactory (niedostateczny)	ndst

- If the course ends with non-graded credit, the entries 'passed' or 'failed' are entered into the electronic protocol.
- In addition to the grade scale used for examinations in all fields of study, an auxiliary ECTS (European Credit Transfer System) grade scale is adopted:

ECTS letter rating	Assessment	Grade in words
A	5	very good
B	4.5	four and a half
C	4	good
D	3.5	three and a half
E	3	satisfactory
FX	2	unsatisfactory - some deficiencies need to be completed in order to receive a credit
F	2	unsatisfactory - a lot of missing information needs to be taught in order to receive credit

- If the student's grades are given on a scale that is different than the one applicable at the University, the grades should be converted according to the following formula before calculating the mean for the studies, except for the grades issued by foreign Universities, subject to sec. 5:

grade awarded according to a different scale	grade valid at the University
unsatisfactory (1.0)	unsatisfactory (2.0)
poor (2.0)	satisfactory (3.0)
satisfactory (3.0)	fairly good (3.5)
good (4.0)	good (4.0)
very good (5.0)	above good (4.5)
excellent (6.0)	very good (5.0)

- If the student obtains grades granted by a foreign university, the decision on their conversion into a grading system applied at the University is made individually by the Dean of the relevant Faculty, in consultation with the Faculty Coordinator of the Erasmus+ programme.
- The annual grade is calculated using the arithmetic mean of final grades in conducted classes, obtained in a given academic year. The arithmetic mean is expressed in two decimal places. If the third decimal digit is greater than or equal to 5, the grade average is rounded up.

## CHAPTER VII CREDIT AND EXAMINATIONS

### A. General rules of receiving credit

Art. 33

- The basis for obtaining credits for a course is to achieve and recognise the learning outcomes assigned to the course and defined in the course syllabus.
- The condition for completing the 'diploma seminar' during the last term of study is to submit a diploma thesis

- by the student in the fields where it is required and to complete the individual stages of this thesis as agreed with the supervisor in previous terms.
3. If a student was using prohibited help, scientific materials and devices during a test or an examination (without the consent of the teacher conducting the test or examination):
    - 1) the student shall not pass the test, or
    - 2) shall receive an F from the examination.
  4. In case of the event referred to in sec. 3, the person conducting or examiner notifies the Dean of the relevant Faculty. The Dean conducts a conversation with the student and notifies the Rector of this fact, who decides whether to initiate an investigation by the Disciplinary Ombudsman for Student Affairs.
  5. The person responsible for the course is obliged to issue and enter the grades into the electronic protocol within 4 working days from the date of the conducted examination or test (but no later than the end of the re-sit session).
  6. The term completion audit conducted by the Dean should be carried out within 7 calendar days after the date of the end of the re-sit session but no later than the date enabling the proper implementation of reporting in the POL-on system.

## **B. Receiving credit for classes and tests allowing to re-sit an examination**

### Art. 34

1. Credit for a course that ends with an examination is received on the basis of credits for all forms of classes conducted as part of this course and a positive examination grade.
2. Receiving credit for a course not covered by an examination requires receiving credit for all forms of classes conducted within this course.
3. The student has the right to retake a test once after agreeing on the date with the course lecturer.
4. In the event of failing to pass the test mentioned in sec. 3, the student has the right to take a test covering the entire material included in the course curriculum in a given semester, provided that they take all the remaining tests. The date of the test should be agreed no later than two working days prior to the planned date of the test or examination in this course.
5. In the event of failing to pass the test mentioned in sec. 4, during a course ending with an examination, the student shall not be allowed to take the examination at first sitting, and grade 'insufficient' is entered into the protocol.
6. A student who did not pass a test, mentioned in sec. 4, in the case of a course ending with an examination, has the right to retake the test, however, not later than before the beginning of the resit session. After passing the test allowing to resit the examination, the student may sit the retake examination on its first date. If the student fails to pass the test, he or she cannot receive credit for the course.
7. In the event of failing to pass the test mentioned in sec. 4, from a course ending with an examination, the Dean can grant permission for conditional promotion to the next semester, in accordance with the conditions set out in Art. 44, sec. 2.
8. The dates of the tests mentioned in sec. 4 and 6 are determined by the person conducting the course in agreement with the student.

#### Art. 38

1. The examination may consist of two parts - a practical and a theoretical one. Both parts of the examination are treated equally, i.e. a grade of at least 'satisfactory' in each part of the examination is required to pass the examination. The theoretical examination may be written (including a test type) or oral. Where an examination consists of a practical and a theoretical part, the method of calculating the final examination grade (arithmetic mean, weighted mean, including the weight of each part) is defined in the Course Syllabus.
2. The intervals between the dates of the examination in the same course should not be shorter than 4 working days from the date of announcement of the results of the last examination.
3. During one day, a student may sit an exam only in one course.

3. The original, written justification should be submitted to the examiner, or an electronic version should be sent via student's email to the examiner, who forwards the document to the Dean's Office of the relevant Faculty. If the justification is sent in an electronic version, the original document must be immediately submitted to the Dean's Office after the reason for the student's absence ceases.
4. If the justification is accepted, the examiner shall issue his or her opinion on the application for the restitution of the term and submit the documents to the Dean who shall be make the final decision, provided that:
  - 1) the examination is held no later than within 14 days following the end of the examination session;

    - b) the diploma thesis grade - B (the arithmetic mean of the grades of the supervisor and the reviewer given for the diploma thesis);
    - c) the diploma examination grade - C (the arithmetic mean obtained in the defense of the diploma thesis and the practical and/or theoretical examination).
2. The average overall grade is the arithmetic mean of all grades obtained at examinations, determined by rounding to two decimal digits, according to the mathematical rule: if the next number is equal to or greater than 5, the grade average is rounded up.
3. The result of the first cycle studies shall be calculated with the use of the following formula:  $0,75*A+0,125*(B+C)$ . In the case when the study programme does not provide for a diploma thesis, the result of studies shall be calculated with the use of the following formula:  $0,75*A+0,25*C$ .
4. The result of uniform Master's studies, where there is a requirement to submit a diploma thesis and of the second-cycle studies is given by the formula  $0,6*A+0,25*B+0,15*C$ .
5. In the graduation diploma, the final result of studies is entered, rounded to one decimal digit, according to the following rules:
  - to 3.24 – satisfactory (3.0)
  - from 3.25 to 3.74 – fairly good (3.5)
  - from 3.75 to 4.24 – good (4.0)
  - from 4.25 to 4.60 – above good (4.5)
  - over 4.61 – very good (5.0)
6. In documents concerning the course of studies other than the ones referred to in sec. 5, the result of studies is determined, rounding to two decimal digits, according to the following mathematical rule: if the next number is equal to or greater than 5, the average of the grades is rounded up.
