Educational objectives (max. 6 items)

C1. Aim of education is to teach the student diagnosing of the life treating conditions related to trauma, poisonings and internal disorders in children and adults, paying special attention to relationships with the

diseases and procedures related to stomatology.

C2. Student also should be able to organize and lead cardio respiratory resuscitation children and adults.

Education result for course in relation to verification methods of the intended education result and the type of class:

| Number of detailed education result | Student who completes the course knows/is able to | Methods of verification of intended education results | Form of didactic class *enter the abbreviation |
|---|--|--|--|
| E.W2. | the basic methods for conducting a medical | Interactive | SE, MC |
| | examination and the role of additional tests in | conducting of | |
| | diagnosis, monitoring, prognosis and prevention of | classes, test | |
| | organ and systemic disorders, with a particular | | |
| | emphasis on their effects on oral tissues; | | |
| E.W4. | the principles for dealing with victims suffering from | Interactive | SE, MC |
| | multiple organ injuries; | conducting of | |
| | | classes, test | |
| E.W5. | the principles of organisation of rescue operations in | Interactive | SE, MC |
| | disasters and accidents, the phases of rescue | conducting of | |
| | operations and the scope of provision of aid to the | classes, test | |
| | victims; | | |
| E.U12. | recognise diseases of the nasopharyngeal cavity, | Interactive | SE, MC |
| | their aetiology and pathomechanism; | conducting of | |
| | | classes, test | |
| E.W17. | the causes and mechanisms of circulatory and | Interactive | SE, MC |
| | respiratory arrest and the principles of | conducting of | |
| | resuscitation and post-resuscitation management; | classes, test | |
| E.W18. | life-threatening situations; | Interactive | SE, MC |
| | | conducting of | |
| | | classes, test | |
| E.U8 | Recognize life-threatening risks | Interactive | MC |
| | | conducting of | |
| | | classes, test | |
| E.U20 | Perform basic medical procedures and treatments: | Interactive | MC |
| | temperature measurement, pulse measurement, | conducting of | |
| | non-invasive blood pressure measurement, oxygen | classes, test | |
| | treatment, ventilation | | |

^{*} L- lecture; SE- seminar; AC- auditorium classes; MC- major classes (non-clinical); CC- clinical classes; LC- laboratory classes; CSC- classes in simulated conditions; PCP- practical classes with patient; FLC- foreign language course; PE- physical education; VP-vocational practice; DSS- directed self-study; EL- E-learning

Student's amount of work (balance of ECTS points):

| Student's workload | Student Workload |
|--|------------------|
| (class participation, activity, preparation, etc.) | |
| 1. Number of hours of direct contact: | 25 |
| 2. Number of hours of distance learning: | 0 |
| 3. Number of hours of student's own work: | 5 |
| 4. Number of hours of directed self-study | |
| Total student's workload | 30 |
| ECTS points for course | 1,0 |

Content of classes: (please enter topic words of specific classes divided into their didactic form and remember how it is translated to intended educational effects)

Seminars

1. Shock – types, patophysiology, diagnosis and evaluation. 1h

- 2. Local anesthesia pharmacology, complications, emergency procedures 1h
- 3. Risks related to the physical and chemical factors 1h
- 4. Traffic accidents rescue strategies 1h
- 5. Emergency management in case of mass accidents and disasters 1h

Classes

- 1. Advanced Life Support (ALS) 2h
- 2. Pediatric Advanced Life Support (PALS) 2h
- 3. Rescue Airways procedures 2h
- 4. Cardiac and neurological emergences diagnosis and evaluation 2h
- 5. Craniocerebral trauma, thoracic, abdominal and extremity trauma first approach, further evaluation, emergency procedures. 2h

Other

not applicable

Basic literature (list according to importance, no more than 3 items)

- 1. "Emergency Medicine" L. Pousada, H.H. Osborn, D.B. Levy. Williams & Wilkins, Baltimore, 1996
- 2. "Emergency Medicine" Judith E. Tintinalli, Gabor D. Kelen, J. Stephan Stapczynski; American College of Emergency Physisian; Mc Graw Hill, New York, 2012, 8th Edition
- 3. "ABC of Resuscitation" M.C. Colquhoun, A.J. Handley, T.R. Evans; BMJ Books 2004, 5th Edition

Additional literature and other materials (no more than 3 items)

1. "ABC of Major Trauma" Peter Driscoll, David Skinner, R. Earlam; BMJ Books 2000, 3rd Edition

Preliminary conditions: (minimum requirements to be met by the student before starting the course) Obtaining a first aid credit in the first year.

| Rules for gr | anting partial grades in the subject during the semester: | | | | |
|-------------------------|---|--|--|--|--|
| | Conditions to receive credit for the course: 4 | | | | |
| Grade: | Criteria for courses ending with a grade | | | | |
| Very Good (5.0) | | | | | |
| Good Above (4.5) | | | | | |
| Good (4.0) | | | | | |
| Satisfactory Plus (3.5) | | | | | |
| Satisfactory (3.0) | | | | | |
| | Criteria for courses ending with a credit (without a grade) | | | | |
| Credit | Credit in first aid course and the rules of the resuscitation learned at the first year of study. Obtaining a positive grade from the test - the test consists of 25 single-choice questions and each question is rated 1 point. The test is passed if the student receives the number of points ≥ 18.Credit in direct contact with academic teacher, test | | | | |
| Grade: | Criteria for exam | | | | |
| Very Good (5.0) | | | | | |
| Good Above (4.5) | | | | | |
| Good (4.0) | | | | | |
| Satisfactory Plus (3.5) | | | | | |
| Satisfactory (3.0) | | | | | |

| ⁴ Please only fill out the conditions to receive credit specific to the given course and delete the remainder. Conditions to receive credit for the course |
|---|
| (ie. with a grade or without), and the conditions for obtaining a grade from the exam, must include verification of the result of the given education |
| carried out during all forms of teaching within the given subject (the following must be specified: form, criteria, and conditions to receive credit for |
| classes included in the course, the admission terms to the final theoretical or practical examination, the form and requirements that must be met by |
| the student to pass, as well as the criteria for specific grades). ATTENTION! Attendance can not be a condition for passing the course |
