

GENERAL MICROBIOLOGY WITH MICROBIOLOGY OF THE ORAL CAVITY
DENTISTRY
the academic year 2024-2025

Meeting Times and Room Assignments

Lectures (30h); Friday (15.00-16.30) Teams

Lecture Schedule

Date		Topic
4.10.2024	1	Introduction to medical microbiology.
11.10.2024	2	Gram-Positive Cocci
18.10.2024	3	Human-Microbe Interaction. Human microbiota.
25.10.2024	4	Gram-Positive Bacilli and Acid Fast Bacteria.
8.11.2024	5	Gram-Negative Cocci and Fastidious Bacilli
15.11.2024	6	Gram-negative Bacilli of <i>Enterobacterales</i> and Nonfermenters
22.11.2024	7	Gram-positive Sporulating Bacilli
29.11.2024	8	Gram-positive and Gram-negative, Anaerobic, Non-Sporulating Bacteria
6.12.2024	9	Chemotherapy of Bacterial Infections. Antimicrobial Resistance.
13.12.2024	10	Curved and Spiral-Shaped Bacilli. Atypical Bacteria.
ORAL CAVITY MICROBIOLOGY		
20.12.2024	11	Introduction to medical mycology. Fungal infections of oral cavity.
10.01.2025	12	Biofilms as architects of diseases. Dental biofilm.
17.01.2025	13	Orofacial bacterial infections.
24.01.2025	14	Introduction to medical virology. Orofacial viral infections, part 1.
31.01.2025	15	Orofacial viral infections, part 2.
