MICROCREDENTIAL: RESEARCH ETHICS AND INTEGRITY

ERASMUS+ BLENDED INTENSIVE PROGRAMME

Hosted by RCSI University of Medicine & Health Sciences

Discover the essence of ethical research! Elevate your postgraduate research journey with our comprehensive module on research ethics and integrity. Uncover the fundamental value of integrity in all forms of research, ensuring credibility and trustworthiness, translating the principles of research ethics and integrity into concrete

action while undertaking research for your higher degree. Explore diverse topics like Ethical Implications of Research, AI's Influence on Research, GDPR's Impact, and more. Learn how to create ethical applications and address legal complexities in real-life cases.

Join students from across Europe in a blended learning environment to discuss and embrace global ethical differences.

ONLINE: Four 90 minute sessions in December 2024 (sessions will be recorded)

IN-PERSON: 20 – 24 January 2025 in RCSI, Dublin.

COST: Free to attend, your University may have Erasmus funding available to assist travel expenses.

CERTIFICATION: 5 ECTS credits will be awarded upon completion of this course.

REGISTER HERE

Places are limited and are granted on the basis of a commitment to travel to Dublin for the in-person days.
