

Wrocław – welcome to the meeting place

Wrocław is the fourth largest city in Poland with over a thousand years of tradition. Called „the Venice of the North” thanks to its 12 islands and 130 bridges, it is a meeting place for people of science, business, and culture. The local universities attract thousands of students every year, offering them not only the highest level of education, but also a chance to live in a historical yet modern city full of music and art, with rampant nightlife and vast job opportunities.

Our university in the rankings

Times Higher Education World University Rankings (THE WUR) – 2024:

WMU is ranked as the best university in Poland, placing it in the 501-600 range globally and within the top 2-3% of universities worldwide.

Academic Ranking of World Universities (ARWU) – 2024:

WMU is the only Polish medical university included in this year's Shanghai Ranking, maintaining its status as the national leader for four consecutive years.

Center for World University Rankings (CWUR) – 2024:

WMU has achieved the top position among medical universities in Poland and is the highest-ranked university in Wrocław.

CWTS Leiden Ranking – 2024:

In Biomedical and Health Sciences, WMU ranks second among Polish medical universities and has improved 21 places overall to 742nd position globally.

How to apply?

You should make an account in our online registration system, fill in the required information, upload scans of your documents, and pay the application fee (85 PLN). Once your application is approved, you will need to wait until a scheduled meeting of the admission board. The admission board will review all confirmed applications and accept candidates with the best results.

Required documents:

- high school diploma with the transcript of grades,
- English language certificate on B2 level,
- ID card/passport,
- application form.

WROCLAW
MEDICAL UNIVERSITY

MEDICINE

We create
the history
of medicine.

Wroclaw Medical University is one of the best medical universities in Poland with over 70 years of tradition. Our students can develop their skills in the biggest and most modern clinical base in the region, as well as in the Medical Simulation Centre equipped with interactive phantoms. The studies are adapted to the common European program – our diplomas are recognized in all EU/EFTA countries, the US, Canada, India, Thailand, Taiwan, and many more. Teaching is carried out by a team of highly educated specialists in tutorial groups of 10-12 students in the theoretical subjects and 4-5 students during bedside teaching. The student community is active and very diverse – there are almost 120 student organizations, focusing not only on scientific research, but also sports, arts, culture, etc. Our efforts to provide the best education standards have also been recognized by Times Higher Education World University Ranking, in which we achieved the highest result of all Polish universities, both overall and in Medicine&Dentistry.

More about
Medicine and
admission
process

Medicine programme:

- The English programme of medicine is adapted to the common European programme, in keeping with the European admission standards for medical education.
- First two years are devoted to preclinical (theoretical) subjects such as: anatomy, histology, embryology, genetics, immunology, etc.
- Foreign students also take Polish language classes to be able to communicate with the patients from the third year onwards.
- From the third year students are taught clinical subjects such as pathology, pharmacology, microbiology, paediatrics, surgery, etc.
- After completing six years of studies and meeting all the requirements depending on the country, the students will be able to apply for a medical license. The diploma is recognized in EU and EFTA countries, USA, Canada, India, Thailand and many others.
