

## Wroclaw – welcome to the meeting place

Wroclaw is the fourth largest city in Poland with over a thousand years of tradition. Called „the Venice of the North” thanks to its 12 islands and 130 bridges, it is a meeting place for people of science, business, and culture. The local universities attract thousands of students every year, offering them not only the highest level of education, but also a chance to live in a historical yet modern city full of music and art, with rampant nightlife and vast job opportunities.

## Our university in the rankings

### Times Higher Education World University Rankings (THE WUR) - 2024:

WMU is ranked as the best university in Poland, placing it in the 501-600 range globally and within the top 2-3% of universities worldwide.

### Academic Ranking of World Universities (ARWU) – 2024:

WMU is the only Polish medical university included in this year’s Shanghai Ranking, maintaining its status as the national leader for four consecutive years.

### Center for World University Rankings (CWUR) – 2024:

WMU has achieved the top position among medical universities in Poland and is the highest-ranked university in Wrocław.

### CWTS Leiden Ranking – 2024:

In Biomedical and Health Sciences, WMU ranks second among Polish medical universities and has improved 21 places overall to 742nd position globally.

## How to apply?

You should make an account in our online registration system, fill in the required information, upload scans of your documents, and pay the application fee (85 PLN). Once your application is approved, you will need to wait until a scheduled meeting of the admission board. The admission board will review all confirmed applications and accept candidates with the best results.

### Required documents:

- high school diploma with the transcript of grades,
- English language certificate on B2 level,
- ID card/passport,
- application form.

Wroclaw Medical University

Study programs in English:

Wroclaw Medical University is one of the best medical universities in Poland with over 70 years of tradition. Our students can develop their skills in the biggest and most modern clinical base in the region, as well as in the Medical Simulation Centre equipped with interactive phantoms. The studies are adapted to the common European program – our diplomas are recognized in all EU/EFTA countries, the US, Canada, India, Thailand, Taiwan, and many more. Teaching is carried out by a team of highly educated specialists in tutorial groups of 10-12 students in the theoretical subjects and 4-5 students during bedside teaching. The student community is active and very diverse – there are almost 120 student organizations, focusing not only on scientific research, but also sports, arts, culture, etc. Our efforts to provide the best education standards have also been recognized by Times Higher Education World University Ranking, in which we achieved the highest result of all Polish universities, both overall and in Medicine&Dentistry.

Nursing programme:

- The student obtains professional qualifications in medical sciences and nursing practice in accordance with European Union requirements.
- During the programme, the student will acquire knowledge of basic medical subjects, such as: anatomy, biochemistry, physiology, pathology etc.; social sciences, for instance: sociology, law, pedagogy, etc., as well as general and specialised nursing subjects.
- Upon graduation from the Nursing programme, students can apply for a license and practice nursing independently all over the world.
- Graduates holding a nursing license are qualified and eligible to:
  - » provide direct healthcare to healthy children and adults in outpatient clinics, educational institutions and occupational healthcare establishments.
  - » provide patients with primary, community, specialist and home-based healthcare services.
  - » seek employment in outpatient and inpatient healthcare centres, hospital departments, spa hospitals and health resorts, specialist clinics, emergency medical departments, residential care homes, day-care centres, etc.
