

Lectures schedule of microbiology for the 2nd year students
Academic Year 2024/2025 www.umw.edu.pl/mikrobiologia

Wednesday 17.00 -18.30

In the summer semester lectures are casual so please, put your attention on the dates and location. Lectures are obligatory for all students – since students get credit for lectures separately from classes, students with more than one unjustified absence on lectures will not get credit of microbiology

Date	Lecture	Teacher	Location
26.02.2025 exceptionally : 17.00 -18.30 18.45 – 20.15	1. Introduction to microbiology. Bacterial cell structure. 2. Antimicrobials.	prof. Beata Sobieszczańska	Teams platform
05.03.2025	3. Staphylococci and streptococci.	prof. Beata Sobieszczańska	Teams platform
12.03.2025	4. Gram–positive bacteria: bacilli and rods	dr Urszula Walczuk	Teams platform
19.03.2025	5. Mycobacterium, Actinomyces, Nocardia.	prof. Beata Sobieszczańska	Teams platform
26.03.2025	6. Bacterial resistance to antimicrobials.	prof. Beata Sobieszczańska	Teams platform
02.04.2025	7. Gram–negative fermentative and non–fermentative rods. Anaerobes.	prof. Beata Sobieszczańska	Teams platform
09.04.2025	8. Gram–negative small coccobacilli and rods.	prof. Beata Sobieszczańska	Teams platform
30.04.2025	9. Atypical and spiral bacteria	prof. Beata Sobieszczańska	Teams platform
14.05.2025	10. Fungal infections.	dr Urszula Walczuk	Teams platform
