

List of compulsory subjects referred to in §39 section 3 item 3 of the Studies Regulations of the Wrocław Medical University, effective from the 2021/2022 academic year.

Field	Level of study (first-cycle programme / Second-cycle programme / long-cycle Master's degree programme)	Year of study	Term	Subject
Medicine	long-cycle Master's degree programme	I	winter / summer	Anatomy
		II	winter / summer	Physiology
		III	winter / summer	Pharmacology and toxicology
Medicine and dentistry	long-cycle Master's degree programme	I	winter / summer	Normal anatomy
		II	winter / summer	Biochemistry
		II	winter / summer	Biochemistry with elements of chemistry
		III	winter / summer	Pharmacology
Pharmacy	long-cycle Master's degree programme	I	winter / summer	Inorganic chemistry
		II	winter / summer	Organic chemistry
		III	winter / summer	Drug chemistry
Medical analytics	long-cycle Master's degree programme	I	winter	Anatomy
		I	summer	Immunology
		II	winter	Physiology
		II	summer	Clinical chemistry
		III	winter	Haematology
		III	summer	Clinical chemistry
Dietetics	First-cycle	I	summer	Human nutrition 1
		II	winter / summer	Fundamentals of dietetics 1 and 2
	Second-cycle	I	summer	Dietary prevention and treatment of non-communicable and nutrition-related diseases
		II	winter	Nutrition of pregnant and lactating women/nutrition of young children
Physiotherapy	long-cycle Master's degree programme	I	winter / summer	Human normal anatomy I/ Human normal anatomy II

		II	winter / summer	Kinesiotherapy II / Kinesiotherapy III
Emergency medical care	First-cycle	I	winter	Anatomy
		II	winter/summer	Medical emergency procedures
Nursing	First-cycle	I	winter	Anatomy
		I	summer	Fundamentals of nursing
Midwifery	First-cycle	I	winter	Anatomy
		I	summer	Fundamentals of midwifery care
		I	summer	Maternal techniques and childbirth care
