

Department of Prosthetic Dentistry

26 Krakowska St., 50-425 Wrocław

Head: Associate professor Dr Edward Kijak DMD, MSc, PhD

**Schedule of CLINICAL CLASSES of PROSTHODONTICS
for V year Students of Dentistry English Division
2026/2027, winter term**

Time of classes: Friday 8.00 - 11.45

Place of classes: Clinical room no 105, 111, Department of Prosthodontics, ul. Krakowska 26, first floor

	DATA	SUBJECT	CONTENT AND METHODS
1	02.10.	Regulations of the Department of Prosthetic Dentistry. Subject introduction: schedule, conditions for passing the winter semester, actual literature and other aids.	• Conducting prosthetic diagnostics of the masticatory system: interview, extra- and intraoral examination, planning and preparation before prosthetic treatment and initial stage of prosthetic procedure (taking anatomical impressions - diagnostic models)
2	09.10.	The meaning of examination in masticatory system rehabilitation, the meaning of additional tests in planning of the prosthetic treatment. Preparation of patients for prosthetic treatment - pre-prosthetic treatment.	• Partial test - checking knowledge from previous classes • Analysis of diagnostic models Planning of prosthetic treatment. Independent performance of clinical treatments for fixed and removable dentures.
3	16.10.	Standard and individual posts: indications, contraindications, clinical and laboratory performance.	• Partial test - checking knowledge from previous classes. • Independent performance of clinical treatments for fixed and removable dentures.
4	23.10.	Dental crowns: division, general characteristics, indications and contraindications, principles of clinical and laboratory management.	• Partial test - Posts • Independent performance of clinical treatments for fixed and removable dentures.
5	30.10.	Dental bridges: division, indications, contraindications, design principles, advantages and disadvantages of bridges compared to removable dentures in the alternative case.	• Partial test - DENTAL CROWNS. • Independent performance of clinical treatments for fixed and removable dentures.
6	06.11.	Dental bridges – part II	• Partial test – DENTAL BRIDGES • Independent performance of clinical treatments for fixed and removable dentures.
7	13.11.	Dental implant prosthetics: indications, contraindications. Planning of the treatment. Types of implants. Clinical and laboratory management in implant prosthetics.	• Partial test - checking knowledge from previous classes. • Independent performance of clinical treatments for fixed and removable dentures.
8	20.11.	Dental implant prosthetics – part II	• Partial test – Dental implant prosthetics • Independent performance of clinical treatments for fixed and removable dentures.
9	27.11.	Frame dentures. Parallelometric analysis of the working model - determination, purposefulness and method of conducting. When a frame denture is made in cases alternative to dental bridges.	• Partial test - checking knowledge from previous classes • Independent performance of clinical treatments for fixed and removable dentures.

10	04.12.	Frame dentures – part II – clasps and retainers	• Partial test – FRAME DENTURES • Independent performance of clinical treatments for fixed and removable dentures
11	11.12.	Partial and complete dentures	• Partial test: PARTIAL AND COMPLETE DENTURES • Independent performance of clinical treatments for fixed and removable dentures.
12	18.12.	Summarizing course topics, discussing clinical cases, making up assignments. Credit of the subject.	• Independent performance of clinical treatments for fixed and removable dentures • Credit of the subject

The conditions of getting the credits:

1. The credit for passing the theoretical knowledge from classes, and seminars with the leading assistant. Oral answer or written test.

2. Receiving a credit for practical skills from the teaching assistant according to the individually performed clinical procedures.

3. Phantom works and clinical procedures necessary for obtaining 5th year credit (annual standard) :

• clinical work performed independently (all clinical phases)

- prosthetic crown - 2
- prosthetic bridge - 1
- crown-root inlay - 2
- complete dentures - 2 (one of each using the classic method and the Wrocław method)
- partial dentures - 2
- skeletal denture - 1 (performed as a demonstration for each clinical group)
- denture repair (adding a clamp, attaching a tooth, fixing the plate) - 1

4. Receiving a passing grade on the final exam, which is in the form of a test. The test consists of single-answer multiple-choice test with five answer choices; the time limit is 1 minute per question, for a total of 100 minutes.

5. To be allowed to take the end-of-semester written exam, students are required to complete all seminars and practical assignments listed in the schedule for that semester.

6. To be allowed to take the end-of-year exam, students are required to complete all seminars and practical assignments listed in the schedule for both semesters of the given year and to receive passing grades on the midterm tests.

7. Grading scale for end-of-semester written exam:

Very good (5,0) – 93% to 100%

Above good(4,5) – 85% to 92%

Good (4,0)– 77% to 84%

Sufficiently good (3,5) – 69% to 76%

Sufficient (3,0) – 60% to 68%

Fail (2,0) – below 60%

GERIATRIC DENTISTRY (V year)**Academic year 2026/2027- winter semester****CLINICAL CLASSES:**

Nr	Subject
1.	Changes in oral cavity caused by ageing and progressive loss of natural teeth. Mastering skills in clinical procedures during prosthetic treatment of geriatric patients. Examination and diagnosis of geriatric patient.
2.	Influence of local and systemic diseases on dental treatment. Changes in soft and hard tissues of teeth. Mastering skills in clinical procedures during prosthetic treatment of geriatric patients.

CLASSES:

Grupa	Data	Data	Godziny	Prowadzący
CK 1A	22.01.2027	29.01.2027	8.00-11.45	Dr Agnieszka Nowakowska-Toporowska DMD, MSc, PhD
CK 1B	22.01.2027	29.01.2027	8.00-11.45	Associate professor Dr Zdzisław Artur Bogucki DMD, MSc, PhD

SEMINARY:

Nr	Topic
1.	Residual dentition, versus aesthetics and retention of dentures.

GROUP	DATE	HOURS	ROOM	TEACHER
SE1	07.12.2026	15.45-18.45	23, 23a	Associate professor Dr Zdzisław Artur Bogucki DMD, MSc, PhD

Requirements for obtaining the credit:

Obligatory participation in all the classes and positive marks in colloquium and other tests.

Moreover, students should be prepared for each classes and know prospective clinical procedures needed in treatment of particular patients according to treatment plan discussed and confirmed by a tutor.
