

REGULATIONS OF DIDACTIC ACTIVITIES
DIVISION OF POPULATION STUDIES AND PREVENTION OF NONCOMMUNICABLE DISEASES
FOR THE ACADEMIC YEAR 2026/2027

1. The schedule of classes for compulsory courses (Public Health) for fifth-year students of the Faculty of Medicine and fifth-year students of the Faculty of Dentistry is determined by the Year Coordinator.
2. The schedule of classes for elective courses is determined by the persons responsible for the respective courses.
3. Registration for elective courses is carried out exclusively through the Virtual University.
An exception applies to students with curriculum differences or conditional enrolment, upon presentation of the Dean's decision.
4. In accordance with the Study Regulations, attendance at classes is mandatory and is monitored.
5. Students are required to prepare systematically for seminars in accordance with the topics specified in the course syllabus.
6. **The condition for obtaining credit for and being admitted to the examination in the Public Health course for fifth-year students of the Faculty of Medicine is obtaining a positive course grade.**

Credit: The final grade is the sum of points obtained for completion of the assigned task (presentation) and partial tests. The maximum number of points that can be obtained is 20, while the minimum number of points required for a positive grade for the assigned task is 6.

Examination: The examination is conducted in the form of a test consisting of 50–100 single-choice questions (1 stem and 4 distractors) or in the form of written open-ended questions. The passing threshold is a minimum of 60% correct answers.

The resit exam may be conducted in the form of an oral exam. Passing the oral exam requires providing correct answers to three out of five questions drawn from the question bank.

Grading scale applicable to both the course credit and examination:

- Very good (5.0): 93–100%
- Good Plus (4.5): 85–92%
- Good (4.0): 77–84%
- Satisfactory Plus (3.5): 69–76%
- Satisfactory (3.0): 60–68%
- Unsatisfactory (2.0): below 60%

7. The condition for obtaining credit for the Public Health course for fifth-year students of the Faculty of Medicine and Dentistry is, cumulatively, 100% attendance at classes

and obtaining a minimum of 60% of the points in each of the three partial tests based on questions from the CEM–LDEK question bank.

8. Detailed conditions for obtaining credit for elective courses are specified in the syllabi of the respective elective courses.
9. Credit for each course will be granted only after all missed seminars have been made up. Every absence must be made up, including absences on Rector's Days and during Dean's Hours.
10. Make-up attendance for missed seminars in compulsory courses (Public Health) is possible only during scheduled class hours together with other groups, following prior agreement of the date with the teaching assistant (PhD Alicja Bsiak-Rasała).
11. The conditions for making up missed seminars in elective courses are determined by the persons responsible for the respective courses, as indicated in the syllabi.
12. Students transferring from another university may apply to the Head of the Department of Population Research and Prevention of Civilization Diseases (Prof. Katarzyna Zatońska, MD, PhD) for recognition of a course credit/examination obtained at another university.
 - The application for recognition of the course credit must be submitted before the classes begin.
 - The application must be accompanied by a detailed course curriculum (syllabus) and confirmation of the obtained credit.
 - In each case, following a detailed comparison of the curricula (syllabi), the Head of the Department makes an individual decision on:
 - recognizing the course credit from another university in full, without the need to take the credit test and/or examination, or in part, exempting the student from attending specified seminars; or
 - determining that there are no grounds for recognizing the course credit.
13. Students repeating the academic year may apply for recognition of the examination in the compulsory course (Public Health) obtained in the previous academic year, provided that they obtained at least a good grade (≥ 4.0).
14. Students from lower years are not permitted to make up seminars in advance.
15. In cases of doubt or individual exceptional circumstances, students should contact the teaching assistant (PhD Alicja Basiak-Rasała). Disputes shall be resolved by the Head of the Department of Population Research and Prevention of Civilization Diseases (Prof. Katarzyna Zatońska, MD, PhD).
