Schedule and Academic Year

1st day of October is the first day of the new academic year.

It is also the first day of classes and lectures. Students have to refer to the coordinators in order to set the schedule. Students of medicine and dentistry have to create their own schedule according to the one which is available for the English Division students. Your basis to choose the subject is a Learning agreement for studies. If you want to add/delete a course, you have to refer to the departmental coordinator, who has to accept the change. Students who wish to have Erasmus+ placement have to establish details of their training before arrival with the responsible coordinator.
